BIOGRAPHY

Khen Mhar B. Ilao is a fourth year Bachelor of Science in Computer Engineering student at Jose Rizal University who develops practical solutions that bridge software and hardware. His core areas of expertise are embedded systems, full stack development, and artificial intelligence and machine learning, which he uses to create intelligent, real world applications. Driven by curiosity and a commitment to continuous learning, he actively explores emerging technologies and translates them into working systems through both academic and self initiated work. He is seeking internship and entry level opportunities where he can apply his technical skills, gain industry experience, and contribute to innovative engineering projects while growing as a Computer Engineer.

SKILLS

Programming Languages: Python, Java, C++, JavaScript, SQL, HTML and CSS
Machine Learning and AI: Deep Learning, Convolutional Neural Networks, Transfer Learning, Computer Vision, Natural Language Processing, Model Evaluation
Databases: PostgreSQL, MySQL, Firebase, Supabase
Web and Mobile: Flask, Flutter, REST APIs
Embedded Systems and IoT: Arduino, ESP32, Raspberry Pi, Sensor and Actuator Integration, PCB Design
Software Engineering: Object Oriented Programming, Data Structures and Algorithms, Full Stack Development
Software Tools: Visual Studio Code, PyCharm, IntelliJ IDEA, Arduino IDE, Google Colab, Jupyter Notebook, Git and GitHub, Tinkercad,
Soft Skills: Problem Solving, Critical Thinking, Strategic Planning, Research, Communication, Teamwork and Collaboration, Creativity, Adaptability, Leadership

PROJECTS

Dog Emotion Recognition
Lead Developer, Machine Learning Engineer, Backend Developer - Python, VS Code, TensorFlow, Keras, OpenCV, Matplotlib, Seaborn, Flask, Kaggle

AI Based Air Monitoring System
Lead Developer, Embedded Systems Developer, IoT Developer - Arduino IDE, Arduino C++, Arduino Uno, ESP32, Edge Impulse, Supabase, Wire, LiquidCrystal_I2C, EEPROM

PROJECTS

CPU Escape Box, ALU Arcade Game
Lead Developer, Embedded Systems Developer, PCB Designer - Arduino IDE, Arduino C++, Arduino mega 2560, KiCad, SketchUp, Adafruit_GFX, Adafruit TouchScreen, MCUFRIEND_kbv, Wire, EEPROM

Laboratory Access through Face Detection
Lead Developer, Embedded Systems Developer, Computer Vision Developer - Raspberry Pi OS, Python, OpenCV, NumPy, face_recognition, Supabase, RPi.GPIO, RPLCD, Picamera2

PawsomeCare
Lead Developer, Mobile App Developer - Flutter, Dart, DartPad, Firebase

ATAKI
Lead Developer, Robotics Engineer, Embedded Systems Developer - Arduino IDE, Arduino C++, Arduino Uno

CERTIFICATIONS AND TRAINING

- **AWS Academy Machine Learning Foundations**, Amazon Web Services (2026)
- **Overview of AI**, Huawei (2026)
- **Introduction to AI Literacy and Responsible Use,** Mapúa University (2026)
- **Ignite Philippines Entrepreneurship Program**, Wadhwani Foundation (2026)
- **Relational Database V8**, freeCodeCamp (2025)
